

NIPPON RARE METAL, INC.

New anti-counterfeit measure in the Indian market

To cope with the faking of our selenium products, we are planning to start a new measure as below.

The new identifying information will be on our bags and labels. The combination of those 3 ID numbers will reinforce our existing anti-counterfeit measure, Akliteia label.

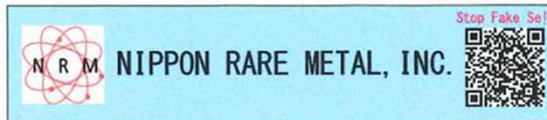

5N Selenium Shot X-ray Grade

Lot: LIX-5521-GW S/N: KIRN00002

NW : 200g

C/N: E7B70

Please store this package in cool (<20°C) and dark place.

Akliteia label

“Stop fake Selenium!”

The newly introduced ID Numbers

1. P/N (Pouch No.) on the bags
2. S/N (Serial No.) on the labels
3. C/N (Check No.) on the labels

- S/N and C/N are unique for every single bag.
- P/N changes by every 200kg (1,000 bags).
